

South Caicos

March 18 - 25, 2023

Join the Aqua Center as we explore the warm turquoise waters of South Caicos Island, and enjoy some of the most unspoiled, well-preserved, and isolated diving in the world.

Our home base for the week will be at the luxurious *East Bay Resort*, with valet diving provided by *Reef Divers*.

Daily boat diving itineraries will primarily focus on the Admiral Cockburn National Park and surrounding areas, and weather permitting, trips to the dramatic shear walls of Grand Turk and the majestic hard coral reefs of East Caicos.

Divers will have the opportunity to see large marine life including several species of sharks, turtles, rays, eels and large schools of Jacks, in addition to other diverse reef creatures and fish. Humpback whales from the North Atlantic visit the warm waters of the Turks and Caicos Islands from December through April, and divers may even experience being serenaded with whale song or have an opportunity to participate in an in-water “soft encounter” (if the whales so permit).

PACKAGE INCLUDES:

- 7 nights lodging (see choice of accommodation)
- Breakfast, lunch and dinner
- 6 days of 2 morning boat dives (tanks & weights included)
- Welcome cocktail
- Manager’s cocktail reception (typically Monday evening)
- Airport ground transfers
- Resort fees, taxes and service fees
